

CAN'T BIKE TO WORK? BIKE TO THE BUS STOP.

May 17 – 21 | bikeva.org

You might think you're just a little too far from work to ride your bike there. But you may be able to bike to a bus stop, use the bus's bike rack, and bike to work from your closest drop-off. By biking to work even part of the way, you can improve your health, reduce traffic congestion, and save money on gas, parking and car repairs. Try it for yourself during Bike to Work Week, May 17th to 21st.
